

# LAUNCH

... that back burner **project**.

... a **new venture**.

... the next **big thing**.

Launch is the place to **make it happen**.

We've combined the support and synergy of a co-working environment with the convenience of a major business campus. It's the best of both worlds. And the parking is free.

A brand new shared office space at TradeCenter 128 in Woburn, Launch offers a variety of month-to-month plans and prices, making it affordable for entrepreneurs and freelancers to get out of the house, get connected with like-minded people, and get their business to the next level.
